

TightVNC Setup Instructions

Installation and configuration for Windows 98/2000/XP

1. Download the TightVNC software from:

<http://www.tightvnc.com/download.html>

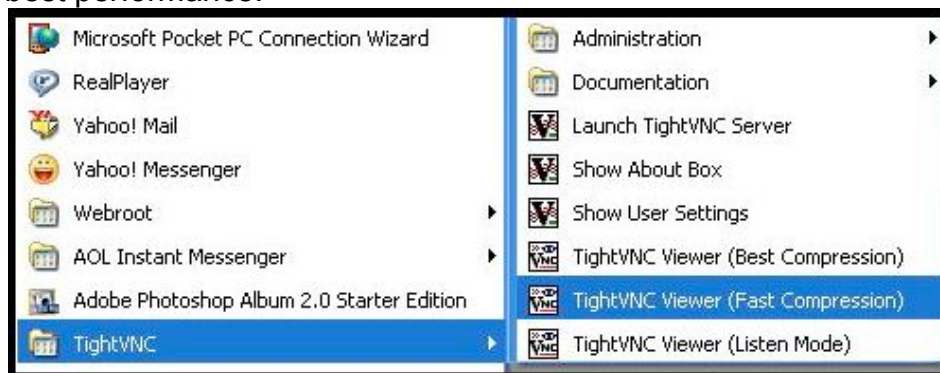

or

<http://umn.dl.sourceforge.net/sourceforge/vnc-tight/tightvnc-1.2.9-setup.exe>

2. Find the location of the saved file on the desktop and double-click the icon to run the installation program.

3. If prompted, choose **RUN**. Then click **NEXT** to proceed with the installation, leaving all settings at the default values. Finally click **Install**, and then click **Finish**.
4. Click the **START** button in the bottom left corner, then choose **ALL Programs**, and then choose for **TightVNC**. Select **TightVNC Viewer (Fast Compression)** for the best performance.

5. Enter the VNC IP address provided into the box, then click **OK**.

**** IP ADDRESS WILL BE PROVIDED IN THE ONLINE CHAT SESSION ****
